◆ Profile

Motivated and hands-on undergraduate with interests in opportunities to contribute, grow, and continuously apply skills in meaningful projects

◆ Employment History

Terrex ICV Operator

Singapore Armed Forces

July 2022 – July 2024

- Operated the Terrex Infantry Carrier Vehicle (ICV) for the 1st Singapore Infantry Regiment.
- Ensured safe and reliable transport by adhering strictly to standard operating procedures.

Process Engineering Intern

EssilorLuxottica

March 2021 – August 2021

- Conducted lens validation checks
- Supported operations involving anti-reflective coating
- Technical maintenance of machines
- Supported operations involving anti-reflective coating

◆ Skills

- Team Collaboration
- Microsoft Office
- C/C++ , Python
- Electrical Engineering
- Electronics Engineering
- Systems Engineering

◆ Tools

- ROS2 (Ubuntu)
- Linux
- SolidWorks
- Visual Studios
- STM32CubeIDE

◆ Education

Bachelor of Engineering (Honours) in Robotics Systems Engineering

Singapore Institute of Technology

September 2024 – Expected 2028

- Coursework and projects cover robotics, electronics, and programming.
- Hands-on experience in ROS2, Solidworks, STM32, Ubuntu.
- Applied Systems Engineering concepts such as domain analysis, requirements definition, stakeholder analysis.
- GPA: **3.35**

Diploma in Nanotechnology and Materials Science

Nanyang Polytechnic

April 2019 – March 2022

- Lab work on chemical and advanced materials (Carbon nanotubes)
- Hands-on experience in material testing, good laboratory practice
- Machine maintenance works
- GPA: **3.08**

Higher Nitec in Mechatronics Engineering

Institute of Technical Education

January 2017 – February 2019

- Interdisciplinary training in mechanical, electrical, and control systems for automation
- Autonomous shopping cart final year project
- GPA: **3.339**

Extracurricular Activities

Nanyang Polytechnic

April 2019 – March 2020

- Community Service Club
- Silver Award

Certificates

- AI4AI – Literacy in AI (Apr 2025)

Languages

- English
- Mandarin
